## BATTERY TRADE-IN

After several years, even the strongest battery will be old and used and a new one is necessary. What to do with the old battery ?

To protect both the environment and our customers' wallets we offer our battery trade-in campaign. This returns important raw materials to production and saves 20% on new purchases.

How it works:

### 1. Your email address:

After receiving your old battery and this form we will email you the 20% voucher.

---

### 2. Return the old battery (except Rotlicht, Penta and C14 Mag batteries) together with this form.

Lupine lighting systems GmbH  
Trade-In  
Im Zwiesel 9  
D-92318 Neumarkt  
Germany

### 3. After receiving the voucher you can order a new battery in our onlineshop.

(The discount code can only be used to order a new battery).

### Important note:

If sending from a third country (Switzerland, Great Britain, Norway, non EU-countries), please contact our service team via [info@lupine.de](mailto:info@lupine.de) **before shipping!**
